Notes:

1. All data in this report are based on information provided to the Guam Dept. of Public Health & Social Services per Title 10, GCA, Chapter 3.
2. Cumulative HIV/AIDS cases include all cases diagnosed/reported on Guam from 1985 through December 31, 2014.
3. Persons living with HIV/AIDS include all cases presumed to be alive as of December 31, 2014 (includes cases with unknown status but does not include cases out of jurisdiction).
4. Age at diagnosis.
5. Total Chamorro cases: 106/42%; total Chuukese cases: 21/8%.
6. Includes blood transfusion, infusion of clotting factor blood product, and occupational exposure.
7. Cases with no risk factor or transmission category were reported between 1988 - 2014.
